Fear and believing we are limited can prevent us from seeing our potential. Christopher's story challenges our mindset and helps us to rethink our mission.

Despite the obstacles we all face, we can achieve more. How can we do that? What are the keys to wanting and being more?

Audiences will become more aware of ability, rather than disability. They will witness friendship, sacrifice and problem-solving. Additionally, there will be a greater understanding of how collaboration and community changes outcomes. Christopher's life is that example.

"My staff and I were incredibly uplifted and motivated by getting to listen to Christopher's presentation. It's easy to put our clients in boxes or unconsciously limit their capabilities based on their diagnosis or 'problems'. Listening to Christopher made us start to see more endless possibilities. This young man with so many challenges has persevered and is tackling them as they come at him while carrying his inspiring, positive attitude. Thank you for letting us have this amazing experience!"
